Our Story

Company Overview

Founded in 2022 in Dubai, UAE, Velosy Safety Consultancy was established with a clear vision—to promote a culture of safety and provide reliable, high-quality inspection and training services across industries.

Driven by a passion for safety and a commitment to protecting people, assets, and workplaces, our journey began with the goal of bridging the gap between compliance and practical safety implementation. From the outset, we have focused on delivering inspection services with integrity, accuracy, and professionalism.

OUR MISSION and Vision

Mission Statement

Our mission is to save lives, protect property and preserve the environment by offering Safety Consultancy, safety trainings and quality third party inspection. We are committed to ensuring that our clients meet national and international standards through comprehensive certifications, safety practices and hands on education. By promoting safety, we empower individuals and organizations to create safe and secure environments, and reduce the risks of accidents and hazards.

Vision Statement

Our vision is to be a global leader in Safety training and third party inspection. We strive to create a safer world where lives are protected, properties are secure and environmental impact is minimized through the highest standards of safety practices. We envision a future where every workplace and community is equipped with the knowledge and resources needed to prevent accidents and safeguard lives.

Client TESTIMONIALS

Great training session! As a facilities manager, I need my team to be up to date on electrical safety. The trainer from Velosy was engaging and tailored the course to our specific needs

highly recommended their third party inspection service they didn't just inspect they gave us tips on maintenance to prolong the life of our equipment great job

Velosy team conducted a PAT testing at our office. Very professional and punctual. They made sure not to disrupt our work. Highly recommended.

What Our Clients Say

Very thorough third party inspection service. They labeled everything clearly and provided a comprehensive certificate. Hassle-free experience with Velosy Safety Consultancy.

Used them for Electrical Thermography. The quality of the report was outstanding, with clear images and recommendations. A very professional outfit.

Velosy did an amazing job with the Electrical Testing at our factory Ras Al Khaimah. Professional team, modern equipment, and very fair pricing. Will call them again.

My team attended the general safety awareness training last week the instructor was very knowledgeable and made complex topics easy to understand

Velosy safety Consultancy completed our annual Pat testing in a professional and efficient manner. Inspection stickers were properly affixed and we received the certificates the next day. Courteous team and excellent service. Highly satisfied
